

The websites opportunities to meet these needs were listed with the associated feasibility of achieving these for an initial release.

		Importance	Feasibility
Create an online presence		5	5
Address barriers to starting Bridge		4	5
Provide information on lessons/play		5	5
Recruit students and players		5	5
Online Discussion forum for bridge problems		3	1
Interactive bridge hands and quizzes		4	1
Integration with existing online bridge platforms		4	0

These were plotted to help decide which are best included in the initial release.

From this assessment it seems obvious that the features to be included in the first release should include

1. Creating an online presence
2. Addressing barriers to starting bridge
3. Provide information on lessons/play
4. Provide opportunity to recruit students and players
